Hybrid

Model shown is the Honda Jazz 1.5 i-MMD Crosstar Advance in Fjord Mist Pearl.

# A self-charging hybrid experience

Our next-generation Honda hybrid tech is designed for a dynamic driving experience that combines a 1.5 litre engine with a lithium-ion battery. The intelligent **e:HEV self-charging hybrid powertrain** automatically selects from three drive modes: Electric, Hybrid or Engine.

**Electric Drive** delivers instant acceleration from standing, almost silent cruising and 100% electric drive.

**Hybrid Drive** combines the petrol engine and two electric motors for a highly efficient full hybrid performance.

**Engine Drive** uses the petrol engine to maintain higher speeds – and charges the battery while doing so.

**SELF-CHARGING HYBRID**  
NO NEED TO PLUG IN

**ADVANCED HYBRID TECHNOLOGY**  
EFFORTLESSLY SWITCHES DRIVE MODES

Specifications may vary in some countries and are subject to change without notice. Please consult your local dealer for details.

Model shown is the Honda Jazz 1.5 i-MMD in Premium Crystal Red Metallic.

# A full hybrid performance

The Jazz's responsive, self-charging full hybrid engine is fun to drive and fit for life, supplying an immense 253Nm of torque to get you going, coupled with a lively 122PS electric motor.

It means **less fuel and fewer emissions**, making it easier on the environment and your wallet – leaving you to enjoy instant power and an effortless driving experience every time.

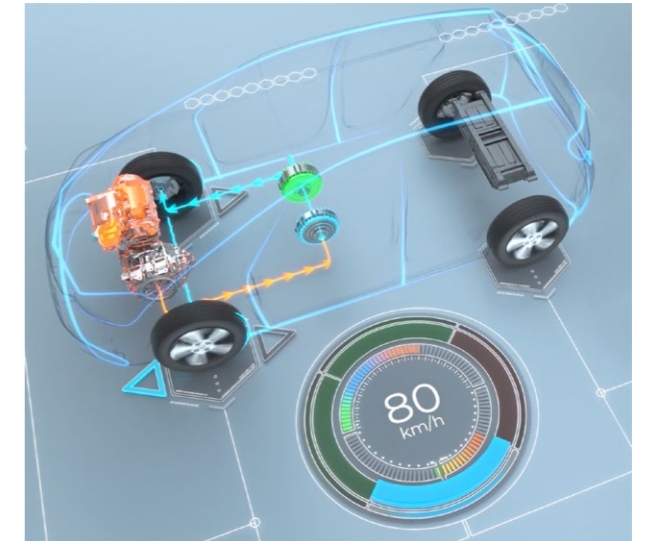

**ELECTRIC DRIVE**  
INSTANT LINEAR ACCELERATION

**HYBRID DRIVE**  
REAL-WORLD EFFICIENCY

## ELECTRIC DRIVE

The electric drive draws its power solely from the lithium-ion battery via an electric motor providing quiet, emission-free driving. This is used when accelerating from a stop or when driving at low speeds. When driving electric, a pure electric range of 2 km is possible.

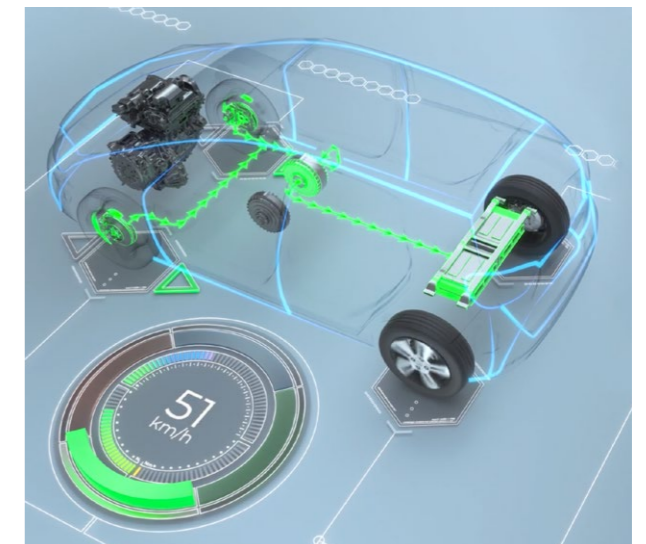

## HYBRID DRIVE

In hybrid drive, the petrol engine and the electric motor distribute the work seamlessly, for example when accelerating or going uphill. The petrol engine powers the electric generation motor, which in turn supplies energy to the electric motor and any excess energy is used to recharge the batteries.

## ENGINE DRIVE

As the name suggests, the petrol engine directly powers the car and is used for high-speed travel.

## REGENERATIVE BRAKING SYSTEM

The regenerative braking system converts wasted energy into electricity and stores it in the battery. Instead of the electric motor consuming energy when it turns the wheels, it is reversed and creates new electricity.

# Honda e:HEV hybrid technology

## e:HEV i-MMD

Honda was the first manufacturer to introduce its mass-produced Honda Insight in 1999. Since then, we've offered hybrid powertrains across our lineup, and even included one in our NSX luxury supercar. Honda has been at the forefront of the hybrid revolution for more than 20 years, with millions of vehicles in service

## Advantages of the i-MMD engine

- High fuel economy
- Low emissions
- No need to plug in
- Instantaneous power response
- Silent electric motor
- Comfortable driving in all situations

# Exterior

Model shown is the Honda Jazz 1.5 i-MMD in Premium Crystal Red Metallic.

# Small dimensions, big impressions

Pairing charismatic design with practical living, the Jazz boasts a clean profile and **a striking silhouette** that's both aerodynamically efficient and effortlessly stylish.

With a refreshed design, every detail is there to give your Jazz a smart, contemporary look and a personality that simply stands out.

**ALLOY WHEELS:**  
ALL GRADES FEATURE  
ALLOY WHEELS AS STANDARD

**LED HEADLIGHTS:**  
ALL GRADES FEATURE LED  
HEADLIGHTS AS STANDARD

Specifications may vary in some countries and are subject to change without notice. Please consult your local dealer for details.

Model shown is the Honda Jazz 1.5 i-MMD in Urban Grey Pearl.

# Interior

# Feel good inside

Never tire in the front seats with **anti-fatigue properties** that provide limousine-class levels of comfort. Other thoughtful touches include a wide centre armrest and plenty of storage throughout.

Wherever you're going, look around you: ultra-thin but immensely strong A-pillars and hidden wipers offer an enhanced field of vision for a confidence-inspiring driving position, flooding the cabin with light and a sense of spaciousness that brings the outdoors in.

**STAY CONNECTED**  
USB PORTS IN FRONT AND BACK\*

**HEATED FRONT SEATS**  
ON ALL GRADES

Model shown is the Honda Jazz 1.5 i-MMD in Premium Crystal Red Metallic.

# Winning the **space** race

Whatever you fit into your life, fit it into the new Jazz with **ingenious rear Magic Seats** that give you the versatility you want right when you need it.

Fold flat and dive-down for extra load space, tip up to utilise the car's full height from floor to ceiling, or choose another combination: one easy motion gives you the flexibility to carry almost anything.

**ONE-MOTION MAGIC SEATS**  
**A HELPING HAND**

Technology

# The world at **your** fingertips

The new Jazz e:HEV seamlessly connects the dots with today's infotainment tech: The 9" Display Audio works with Android Auto and Apple CarPlay to give you all your apps at the touch of a finger. For hands-free help, the voice-activated Honda Personal Assistant is your portal to the outside world: check the weather, find your favourite station or choose a restaurant along your route – this is AI with a human touch.

**AUDIO SCREEN**  
9" TOUCHSCREEN

**HANDS-FREE PHONE**  
BLUETOOTH™ (HFT)

Safety

Model shown is the Honda Jazz 1.5 i-MMD in Urban Grey Pearl.

# Safety comes as standard

**Honda SENSING technology** reads road signs and driving conditions before you do, pre-empting any potential hazards with features like Blind Spot Information\*, Cross Traffic Monitor\*, Collision Mitigation Braking System and Intelligent Speed Limiter.

It's all because we want you and your passengers to enjoy the journey in comfort, safe in the knowledge you're prepared for whatever comes your way.

Wherever you're going, driving a Honda is driving with a sense of security.

\* Available on selected grades. Specifications may vary in some countries and are subject to change without notice. Please consult your local dealer for details. Model shown is the Honda Jazz 1.5 i-MMD in Urban Grey Pearl.

# Honda SENSING innovation

## Collision Mitigation Braking System

If there is a possibility of a collision with a vehicle or a pedestrian, the system will alert you whilst simultaneously reducing your speed, helping to minimise the severity of any impact. The system works even in the dark, with night-time operation to detect pedestrians or cyclists where there is no street lighting; it even applies the brakes if oncoming vehicles cut across or turn into your path.

## Lane Departure Warning

If the car moves out of its lane without you activating the indicator, then alerts will flash and sound to help bring your attention to correcting the lane drift.

## Traffic Sign Recognition System

Reminders of road-sign information such as the current speed limit.

## Lane Keeping Assist System

Helps keep you in the middle of your lane, providing a less stressful driving experience by reducing the need for steering correction movements and driving effort on the motorway.

## Intelligent Speed Limiter

Automatically sets the speed limit as detected by the Traffic Sign Recognition System.

## Adaptive Cruise Control with Low Speed Following

Maintains a constant speed and a set following interval behind the vehicle in front, and can decelerate and stop automatically.

## Auto High-Beam Headlights

Detects a vehicle in front, including oncoming vehicles and automatically switches between high beam and low beam.

## Blind Spot Information\*

Makes lane changes and overtaking safer, warning you when vehicles are detected in your blind spot by illuminating a light in your door mirror.

## Cross Traffic Monitor\*

When reversing, the Cross Traffic Monitor can detect approaching vehicles from either side and warns you of imminent danger.

Your Jazz

# Comfort

The Honda Jazz **Comfort** comes with a wide range of features, including:

- 15" Alloy Wheels
- LED headlights
- Tailgate spoiler
- Leather steering wheel
- Magic seats
- Power windows (with driver's side auto up/down)
- Automatic air conditioning
- 4 speakers
- Remote steering wheel audio controls
- Multi-information display
- Apple CarPlay and Android Auto
- Front USB Type A - (1 port, 1 charger)
- Parking sensors (front 4 and rear 4)
- Bluetooth™ Hands-Free Phone (HFT)

**HONDA CONNECT  
WITH 9" TOUCHSCREEN**

**ELECTRIC WINDOWS  
FRONT AND REAR**

# Elegance

In addition to the features available on the Comfort, the **Elegance** grade includes:

- 16" Alloy Wheels
- Smart Entry
- Tailgate spoiler
- Heated steering wheel
- Automatic Up/Down Windows
- 9-inch audio screen with navigation
- Rear USB Chargers (Type C)
- Electric exterior mirror with automatic tilt and retract (key operation)
- Leather seats
- Leather gear shift knob

**FRONT AND REAR  
USB PORTS**

**HEATED LEATHER  
STEERING WHEEL**

# Jazz colours

We have created a wide range of colours that perfectly suit the stylish new Jazz, which are complemented by our selection of high-quality upholsteries.
